

SWIFT Sport

Way of Life!

The Swift Sport is the culmination of two major objectives: to build a new car that would dominate in the Junior World Rally Championships; and to use that experience to produce an affordable, high-performance supermini for the everyday driving enthusiast. The first objective has already been met. It's time for you to experience the second.

A very super supermini

Take the world's favourite supermini, add a little extra DNA from the legendary Suzuki superbikes and Junior World Rally Championship winner. The result is a very super supermini: distinctive, sporty, precise-handling and quick. Created by a design team in pursuit of building Suzuki's best compact car ever, it offers a perfect combination of style and performance for the driving enthusiast.

From the low-slung grille extension and integrated front bumper to its striking alloy wheels, rear tailgate spoiler, low side skirts, and beefy twin exhausts sprouting from a deep rear valance, this sportster immediately looks like it means business.

Styling stays true to the original design, with a few subtle additions that let everyone know that this is definitely no ordinary Swift. The smart twin pipes protruding from the rear valance are a sure giveaway. Side skirts and bumper extensions help the Swift Sport hug the road while adding to the overall sport style.

The driving position is immediately comfortable with the support of specially designed sports seats, your hands gripping a perfectly proportioned, leather-bound steering wheel.

Inside you feel you're in total control. Metal faced pedals remind you that you are behind the wheel of a rally-inspired sports car, loaded with performance technology that will soon set your heart racing.

Glancing at the dials you notice your tachometer resting at the 6:30 position – a familiar sight to the competitive superbike rider, yet quite unique in the supermini. Alongside is the speedometer, tempting you all the way up to 200 kph. This is a car capable of a quite astonishing turn of speed, yet willing to play its part as a regular commuter. Audio controls on the steering wheel allow you to keep your mind on the driving while you enjoy your favourite sounds. Passengers are well looked after with plenty of leg, head and elbow room. It feels spacious, airy and reassuringly solid. Everything is designed to work in harmony to provide a feeling of security and control, and an unforgettable driving experience.

The safety package includes all wheel ABS brakes with electronic brake force distribution (EBD) and brake assist function. ESP® (electronic stability programme) constantly monitors the vehicle's position and provides traction and stability control for greater performance and safety. Inside, is a collapsible steering column, front seat belt pretensioners and force limiters, energy absorbing trim, and front, side and curtain airbags.

(European seats shown)

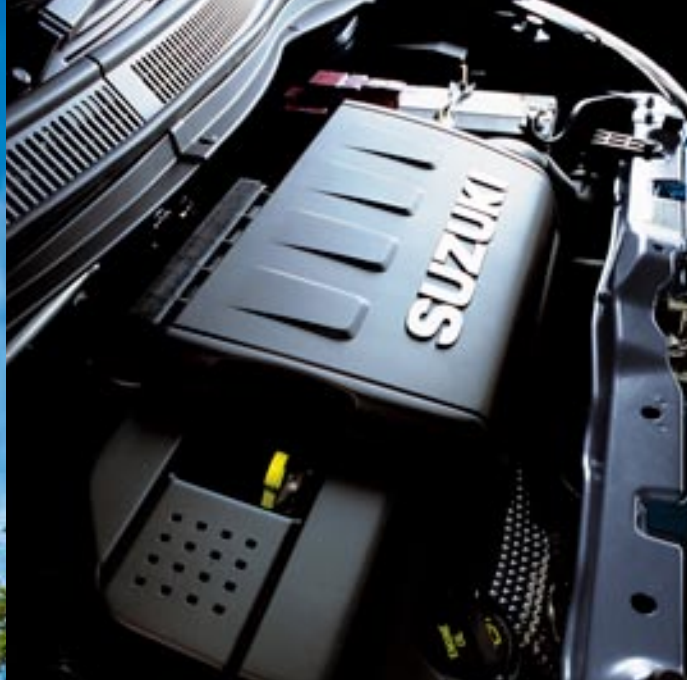

Tight handling is due in part to the overall design and wheel placement, with the added benefit of a new suspension system developed specifically for the Swift Sport. The feel is firm with direct steering and minimal body roll, giving a more traditional sports car characteristic.

To take a car already acclaimed for its superb handling dynamics one step further, we found the perfect partner. Together, we have created a suspension system matched to the unique DNA of the car, providing a tighter, sportier ride without sacrificing comfort.

High performance is not all about engine power, it's also about dynamics and handling. To keep the power on the track where it's needed and allow the driver full control, special attention had to be paid to suspension components and ride characteristics of the Swift Sport. Suzuki engineers collaborated closely with Tenneco's legendary Monroe® Engineering and Technology Centre in Belgium to create a set of suspension components that provide a tighter, sportier ride without sacrificing comfort. The result is a car that has a ride and handling combination that is arguably the best in its class.

The specially developed M16 engine includes new high-lift camshafts, 4-into-1 fabricated exhaust manifold, shot-peened rods and oil-cooled pistons to help deliver more power and a quick throttle response. A close ratio 5-speed gearbox and large clutch gives you total control of the power.

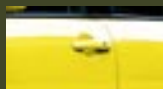

A sports modified 1.6 litre DOHC VVT engine boasting 125 bhp gives the new Swift Sport a distinct edge over many of its rivals. It can get you to the legal speed limit in 8.9 seconds and reach a top speed of 200 kph. This is the classic supermini at its sporting best.

EQUIPMENT		5-door
COMFORT		
Power / tilt steering		•
Electric windows – front and rear		•
Electrically adjustable exterior mirrors		•
Central door locking		•
Remote-controlled door locks with hazard answer-back		•
Audio – Tuner with 6 speakers and steering wheel controls	WMA/CD/MP3	
Air conditioning with pollen filter		•
INSTRUMENT PANEL		
Tachometer & tripmeter		•
Info display	Digital clock	•
	Outside temperature gauge	•
	Fuel consumption gauge (instantaneous or average)	•
Light-off / key reminder		•
Driver's seat belt & door ajar warning lamps		•
Fuel warning indicator		•
INTERIOR		
Cabin light - 3-position / luggage area light		•
Cup holders (front:2 / rear:1)		•
3-spoke leather covered steering wheel		•
Aluminium hairline effect door trim garnish		•
Chrome plated inside door opener & side louvre bezel		•
Medium silver painted gearshift bezel & front speaker rings		•
Sun visors, vanity mirrors & ticketholders (both sides)		•
Centre console box		•
Day / night rear view mirror		•
Front sports seats		•
Cloth seat material / door trim		•
Front seat height adjuster (driver's side)		•
60:40 split folding rear seat		•
3 x Rear seat head restraints		•
4 x Assist grips		•
1 x 12V accessory socket		•
Rear luggage shelf		•
Remote fuel lid opener		•
Footrest & stainless steel pedal plates		•
EXTERIOR		
Halogen headlights		•
Dual exhaust pipes		•
Roof end spoiler & side under spoilers		•
Coloured outside door mirror cowls & door handles		•
Electromagnetic tailgate opener		•
2-speed wipers with variable intermittent		•
Rear window demister & wiper / washer with intermittent		•
UV cut glass windows (front doors)		•
Front fog lamps		•
Black coloured A & B pillars		•
Rear centre aerial		•
MONROE® shock absorbers		•
16 inch aluminium alloy wheels		•
SAFETY & SECURITY		
SRS front dual / front & rear curtain / side airbags		•
Side impact beams & head impact protection structure		•
ABS with EBD and brake assist		•
Electronic stability programme (ESP®)		•
Puncture sealant kit		•
Decoupling mechanism for brake & clutch pedals		•
Seat belts	Front – 3-point ELR (with pre-tensioner & force limiter)	•
	Rear – 3-point ELR x 3	•
High mounted stop lamp		•
ISO FIX child seat restraint system		•
Child-proof rear door locks & child seat tether anchorages x 3		•
Engine immobiliser		•
