

SX4 *sedan*

Way of Life!

SX4. Throw life at it.

Comfort, practicality and style: the perfect combination to make the most of life's journey. You've worked hard to afford the things that matter to you. Step up to the new SX4 Sedan and enjoy the feeling of space, spirited performance, and quality design. Your life may never be the same.

Way of Life!

The thinking behind the SX4 concept.

A sports sedan that perfectly combines performance with practicality

Today's four-door sedan needs to fit the way we like to live. It needs to be practical for everyday family or business use, sophisticated for those special occasions, with the best possible performance for longer trips on the open road. It also needs to be economical, environmentally responsible and offer all-round good value.

That's the thinking behind the new SX4 Sedan. Based on the same engineering concepts employed to develop the successful SX4 Sporthatch and i-AWD models, the all new 2.0 litre SX4 Sedan is designed for those who demand more out of life.

What really sets new SX4 Sedan apart is its sensible attitude to passenger comfort. Avoiding the low stance and difficult access of conventional 4-door sedans, the height of new SX4 Sedan is increased to enhance interior space and usability without sacrificing the elegance of the design.

The new SX4 Sedan. Practical yet elegant. Whatever you do, just throw life at it.

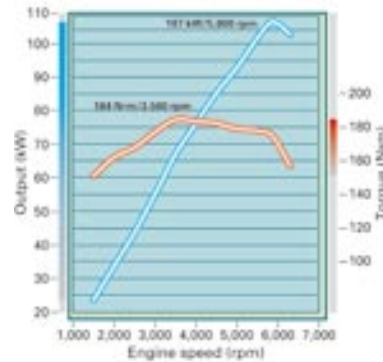

Proven engineering delivers a smooth ride and crisp performance in every driving situation

Throttle response in the 16-valve DOHC engine delivers full low-end torque and high-end athleticism to ensure the SX4 always delivers on its promise.

2.0L Power/Torque

Confident styling is a subtle expression of success and prestige

Engineered to provide a smooth ride while delivering dynamic performance, the SX4 Sedan's sporty compact heritage is readily apparent in its crisp, around town handling and comfortable, long-distance cruising. With its rugged construction and bump-absorbing suspension, it is also agile and stable enough to handle the rough with the smooth. Suzuki's extensive development of engine and transmission technology makes the all-new SX4 Sedan a joy to drive in all conditions.

By focusing on height and space, we've designed a compact yet spacious sedan you can step straight in and out of

**Innovation and elegance combine
to deliver a whole new take on
comfort and style**

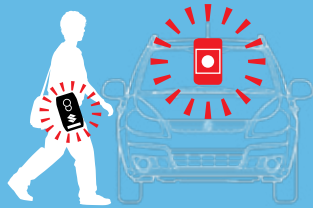

The environment is immediately appealing, with a quality finish and superb attention to detail.

Challenging convention has allowed Suzuki's designers to set new standards. The elegance of the interior space is immediately evident. What may surprise you, however, is the real spaciousness of the SX4 Sedan. Increasing the height has made it easier to get in and out, while providing a safer, more comfortable, upright driving position.

Keyless Start System. A built-in transmitter on the ignition key allows you to lock and unlock the door simply by touching the door handle. Also allows the convenience of starting the engine without using the key itself. Simply keep the key device in your pocket or handbag.

In-dash CD Stereo. The MP3 compatible CD stereo is fully integrated into the centre dash and features speed-sensing volume control for ease of use and safer driving.

8-Speaker Audio System. A top-line audio system surrounds you in high-quality, eight speaker sound coming through both front and rear doors for increased driving enjoyment.

15-inch aluminium alloy wheels. Smart tailored wheels add to the SX4 Sedan's driving characteristics and sporty looks.

Steering wheel-mounted audio controls. Extra convenience and safety is provided by enabling audio adjustment without removing your hands from the steering wheel.

Climate control air conditioning. The dials of the climate control air conditioning system have illuminated ring lights making them easier to see whilst adding to the interior's refined ambience.

Cruise control. Highway cruising is made even more economical, safer and enjoyable.

Front fog lamps. Fully integrated into the distinctive body design to add style and enhance safety.

Play it safe.

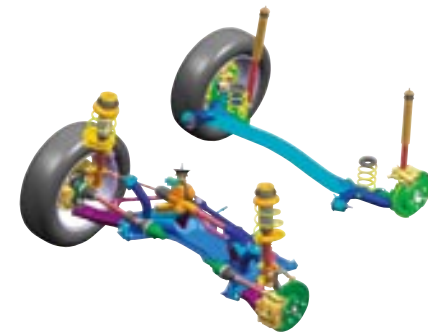

You want life to be fun, packed full of adventures and new experiences. But when it comes to safety you need to know you're in good hands.

Combining next generation dual front airbags, with side-impact and side-curtain airbags, the SX4 Sedan is set to inspire confidence on the road. Add to this the

security of three-point ELR seatbelts, fitted with pre-tensioners and force-limiters, and you have every reason to feel reassured.

An extra high eye point combined with the wraparound design of the headlamps ensures a wider field of vision, while active safety features are equally in abundance.

ABS braking with electronic brake-force distribution (EBD) ensures the vehicle will respond to your every command; independent MacPherson strut front suspension is teamed with a highly rigid torsion-beam setup in the rear, providing responsive, agile driving dynamics.

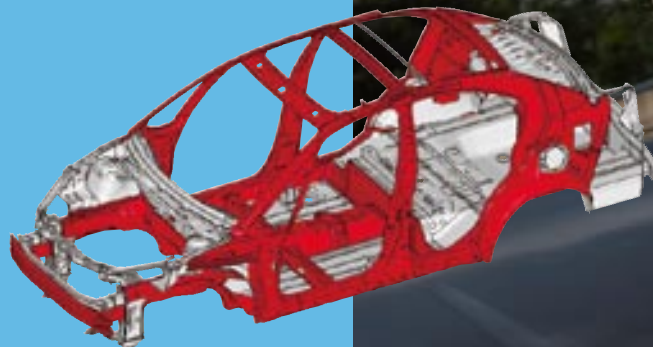

Suspension System. An independent MacPherson strut front suspension is teamed with a highly rigid torsion-beam setup in the rear, providing responsive, linear handling, and stable cornering performance.

SX4 awarded "4 stars" by independent European motor vehicle safety assessment organization Euro NCAP (European New Car Assessment Programme) during Euro NCAP testing, 2006.

As you start every journey, it's good to know the SX4 Sedan is equipped with an impressive array of fully integrated safety features

Safety engineered body. Front and rear crush zones crumple progressively in the event of a collision to absorb impact energy, while the frame design redistributes much of the impact energy away from the occupants. The highly rigid cabin is further reinforced with side impact protection beams, efficiently configured side members, and other measures that raise the overall structural integrity.

Open the door to the perfect balance of interior and exterior refinement

Positioned for easy visibility within the central dash, the **red-illuminated information panel** displays current time and outside temperature as well as both average and instantaneous fuel consumption.

Flush fitted climate controls are ring lit for easy night time usage.

High quality, metallic finish adds to the interior's refined ambience.

Audio control switches are integrated into the steering wheel.

The **adjustable steering column** tilts vertically, enabling drivers to find their most suitable driving position.

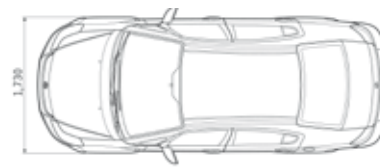

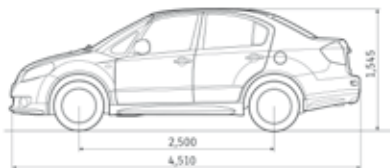

Cruise control for added driving ease and economy.

Power windows and mirrors can be individually controlled from the driver's **side master control console**.
